Authoring App

Requirements Document
Author: Team 9

Revision Level	Date	Pages affected	Comments
1.0	February 05, 2018	1	Initial draft

Requirements:

Allows users (instructors) to:

- Create the flow of scenarios (ask questions, receive answers)
- Edit scenarios
- Record audio in .wav format
- Test/play scenarios

Textual Use Case:

1. Launch the Authoring App
2. Create a New Scenario
3. Save the Scenario
4. Test the saved scenario
5. Exit the Authoring App

Acceptance Test Case:

This section will list the outcomes of acceptance tests (performed by users to test the real life use of the app)
